One Equity Partners Completes Acquisition of PeroxyChem

PHILADELPHIA, Pa. – March 3, 2014 – One Equity Partners, the global private investment arm of J.P. Morgan Chase & Co., announced today the completion of the acquisition of PeroxyChem, formerly FMC Global Peroxygens, a business division of FMC Corporation specializing in peroxygen chemistries. The acquisition includes all sales, manufacturing, and supply chain and R&D capabilities of FMC Global Peroxygens and was valued at approximately $200 million.

This acquisition enables PeroxyChem to extend its market position as a global leader in the manufacturing of hydrogen peroxide, persulfates, peracetic acid and environmental remediation technologies while continuing to provide customized solutions, technical expertise and ongoing support to existing and new customers. PeroxyChem expects no changes to daily operations as a result of the sale.

“PeroxyChem’s strategy is to be fully focused on the production and innovation of high quality peroxygen products and related technologies for a diverse set of industrial and specialty markets,” said Bruce Lerner, PeroxyChem President and CEO. “With a portfolio of high quality products, superb technical expertise, as well as operational excellence and a talented team of employees around the world it is a very exciting way to launch a new company.”

PeroxyChem becomes a part of One Equity Partners’ successful history of building strong, global chemical businesses. One Equity Partners manages capital and commitments of approximately $14 billion. Its portfolio companies in the chemical business sector have included Columbian Chemicals, SudChemie, OCI, Chemlogics, Sonneborn and LBC Tank Terminals.

“One Equity Partners has developed a deep understanding of the international chemical industry and invests only in businesses and management teams we are confident will succeed,” said Tom Kichler, Managing Director of One Equity Partners. “PeroxyChem is already an outstanding manufacturer of
